

Sources Quoted

In Granada during 1996, a bag containing several pages of original texts and extensive research material was stolen from me. Consequently, in spite of efforts, I have not yet been able to precisely ascertain the books from which certain texts were drawn. Two books used but not credited are *Jardines de la Mediterranee* and *Jardines des pays de l'Islam*. I continue efforts to rectify this situation. My sincerest apologies to the authors and publishers of these important works.
