

## AFTERWORD

*Dolores van der Wey and Rosemary Foster*  
*Simon Fraser University*

Through the process of working on this special issue, we became increasingly aware of the complexity and importance of engaging in coalition work in the day to day. Particularly affirming are the ways that colleagues have taken up the theme, for example, through their detailed and thoughtful review of the manuscripts, and their participation in the presentation based on the special edition at CSSE 2007 in Saskatoon. We are excited by the prospect of future conversations.
