

Greek Cypriot refugees.

To achieve a settlement, the U.S. should apply forceful economic, political, and diplomatic pressure on Turkey, including sanctions if necessary, to get Turkey to remove its 35,000 armed forces and its 100,000 illegal colonists from Cyprus."

SELECTED BIBLIOGRAPHY

Editor's Note: The bibliography below is by no means representative of the plethora of books written about Cyprus. Indeed, there is a very rich bibliography that covers Cyprus from antiquity to the present and spanning 8,000 years of history. The monographs listed below are primarily in English and cover but a very small fraction of Cyprus' course through the millennia. In terms of the period covered, this bibliography focuses mainly on the years 1950-2008, while thematically the emphasis is on the Cyprus dispute and the role of external powers. More specifically, this bibliography includes: The decade of the 1950s and especially the EOKA campaign against British colonial rule (1955-1959); Independence and its aftermath with the eruption of intercommunal conflict (1960-1963); The United Nations peace keeping role in Cyprus, the US attempt to mediate and the Greek junta years (1964-1974); The Turkish Invasion and its aftermath (1974-2003); the Annan Plan and Cyprus' accession to the European Union (2004-2008). Included also are several historical overviews of British colonial rule (1878-1959) as well as books on post-World War II Greek-Turkish Relations.
