

# SUBTLE ENERGIES & ENERGY MEDICINE

Volume Seventeen • Number Two

**The Human Energy Field  
and the Invisible Universe**

**Thought and Mind as the  
Projection of  
Mentaholomorphic Fields  
by the Brain**

**Electrical Properties of  
Skin Along Meridians in  
the Extremities Before and  
After Flexible Fiberoptic  
Bronchoscopy**

**Photoplethysmography: A  
Noninvasive Tool for  
Possible Subtle Energy  
Monitoring During Yogic  
Practices**

**Effects of Binaural-beat  
Stimulation on Recovery  
Following Traumatic Brain  
Injury: A Pilot Study**

**Color: Its Therapeutic  
Power for Rapid Healing**

**ISSSEEM  
BOARD OF DIRECTORS**  
2005-2007

*President*

**Christine Page, M.D.**

*Founding-President*

**Elmer Green, Ph.D.**

*Chief Executive Officer*

**C. Penny Hiernu**

*Directors*

**Steven L. Fahrion, Ph.D.**

**Charles Garney**

**Christine Hibbard, Ph.D.**

**Karen Malik, M.S.**

**Karl Maret, M.D.**

**Patricia A. Norris, Ph.D.**

**Ann Nunley, Ph.D.**

**Jim Oschman, Ph.D.**

**Carol Schneider, Ph.D.**

**Jerry E. Wesch, Ph.D.**

**THE INTERNATIONAL SOCIETY  
FOR THE STUDY OF SUBTLE ENERGIES  
AND ENERGY MEDICINE**

The International Society for the Study of Subtle Energies and Energy Medicine (ISSSEEM) is an interdisciplinary organization for the study of the basic sciences and medical and therapeutic applications of subtle energies. The Society was organized in the fall of 1989 and is a non-profit, public benefit corporation based in Colorado.

*Subtle Energies & Energy Medicine* is a premier peer-reviewed, scientific journal designed to meet the needs of experimental scientists, other empirical researchers, clinicians, and theoreticians with interests in consciousness, healing, and the dynamics and limits of human potential. Published papers address the study of subtle energies and informational systems that interact with the human psyche and physiology, either enhancing or perturbing healthy homeostasis.

The Journal is explicitly interdisciplinary in order to allow those with a deep understanding of one discipline to compare insights with those others working along different paths. The Journal provides methodological and clinical guidelines, theoretical background, and scientific credibility for subtle energies applications and supports increased dialogue among clinicians, healers, and the scientific and medical communities.

The Journal is a unique outlet for research and commentary at the interface of several cutting-edge fields, including complementary and alternative medicine, applied psychophysiology and biofeedback, psi research, the new physics, and bioelectromagnetic medicine. Published papers include state-of-the-art experimental research, theoretical essays, clinical papers, case reports, and commentaries.

Modest membership dues and contributions sustain the Central Office and provide members with a quarterly magazine, *Bridges*. The ISSSEEM Annual Conference, held in Boulder, Colorado, serves as the leading public forum where our mission and our values are exemplified, as well as a place where all of our members and other interested persons are welcomed and educated. Program details are available from the ISSSEEM Central Office.

*The International Society for the Study of Subtle Energies and Energy Medicine is a non-profit, public benefit corporation based in Colorado. All unsolicited manuscripts must be accompanied by a self-addressed stamped return envelope. Submissions must conform to guidelines detailed at the end of the Journal. © 2006 by The International Society for the Study of Subtle Energies and Energy Medicine.*
