Foreword by L. A. de Lange, President of the OSTIV Allocution de M. Marcel Agésilas Allocution du Professeur Dr. W. Georgii Discours d'ouverture de M. L. A. de Lange

Technical Papers

Improving Sailplane Performance with Suction Boundary Layer Control - Joseph J. Cornish III

Flight Testing of British Prototype Gliders - F. G. Irving

Die Auslegung von Segelflugzeugen - R. Eppler

Bauvorschriften und Musterprüfung von Segelflugzeugen in der Schweiz - M. Peyer

Staustrahlpropeller für Segelflugzeuge - E. Schäfer

Sur l'influence de la déflexion des bouts d'ailes sur la sustentation et la résistance - Svetopolk Pivko

Structural Parameters for a Metal Wing in Design Stage - Boris J. Cijan

An Aerodynamic Performance Figure of Merit for Sailplanes - H.C.N. Goodhart

An Analysis of Goodhart's Figure of Merit - F.G. Irving

Kunststoffsegelflugzeug FS 24 Phönix - H. Nägele und R. Eppler

The History of the Slingsby Skylark Series of Sailplanes - F.N. Slingsby

Study, Construction and Flight Tests of the High Performance Sailplane CVT-2 «Veltro» - Piero Morelli

Motorless Flight in the Stratosphere

Die Funktion des Variometers vom Standpunkte des Segelfluges - B. Gumpert

UKW-Sprechfunkgeräte im Segelflugbetrieb - Joachim Wendland

The Landing Gear of High Performance Sailplanes - Alberto Morelli

A Total-Energy Variometer Operated by Pitot Pressure - F.G. Irving

Glider Training in Britain - Ann Welch

Probleme des Blindfluges mit Segelflugzeugen - Werner Ledermann

The Handling Characteristics and Posturnance Sailplanes - H.C.N. Goodhart, F.G. Irving, D.H.J. Ince, Paul Bikle

Meteorological Papers

The Rotor Flow in the Lee of Mountains - Joachim Kuettner

Meteorological Aspects of the Sierra Wave - Harold Klieforth

Airflow over and in the Lee of an Isolated Hill (summary) - R.S. Scorer

Sur la variabilité avec l'altitude du paramètre 12 lors de la formation d'ondes de relief - Adriano Gazzola

Strahlströmung und Böenlinie - Walter Georgii

Active Turbulent Layer Downwind of Mountain Ridges - Jiří Förchtgott

Über die Entstehung des «jet-stream» und seiner Turbulenz - Paul Raethjen

Les mouvements ondulatoires à Saint-Auban-sur-Durance (summary) - Maurice Bérenger et Norbert Gerbier

H.P. Barthelt und G.H. Ruppersberg; H. Koschmieder und H.G. Neumann; H. Koschmieder und H. Schulz; H.V. Tippelskirch (summaries)

Research on Atmospheric Turbulence and Freezing Nuclei Transport by Means of a Sailplane (summary) - Paul B. MacCready, Jr.

The Vertical Velocity Pattern Created by an Isolated Mountain - Morton G. Wurtele

Squall Lines, Pressure Jump Lines and Atmospheric Gravity Waves - Morris Tepper

The Radar Observation of Mature Prefrontal Squall Lines in the Midwestern United States - Myron G. H.Ligda

Radar «Angel» – F.H. Ludlam

Cumulonimbus: New Ideas on Hail, Thunder and Tropical Storms - F.H. Ludlam

Kurze Aufzeichnungen meines Fluges; Observations during a Soaring Flight along a Squall Line - Hanna Reitsch

Experiments with Convection Bubbles - R.S. Scorer

Exploration by Sailplanes of the Structure of Thermals - Betsy Woodward

Flight Observations on the Fine Structure of Cumulus Clouds - Robert M. Cunningham

A Theory of Thermal Soaring - Betsy Woodward

The handling characteristics of high performance sailplanes – H. Goodhart, F. Irving, D. Ince, P. Bikel
